

2019 UNITECH BUILDING SERVICES CAFNIX & SA STATE TITLES – ROUND 1

MALLALA MOTORSPORTS PARK

TIMING BULLETIN

Timing transmitter collection and deposits

Transponders should be available for collection from the timing room in the middle level of Finish line control tower, on Saturday morning from 7:45am. **A \$50 refundable security deposit is required, which can be left in cash or by recording credit card details.**

Timing transmitter mounting

It is the competitor's responsibility to ensure that timing transponders are properly mounted for all sessions (including practices and warm-ups). Competitors found not to have transponders properly mounted, may be black-flagged from the session or have times excluded after the end of the session. Computime's back-up procedures ensure that accurate times are recorded if any competitor is found to have a faulty timing transmitter.

Transmitter mounting brackets

Mounting brackets WILL NOT be provided for rental with transponders. Competitors who do not have their own already can buy them when collecting transponders for **\$10 each** (GST incl). They can then retain the bracket on their bike for future events.

Television live timing

Competitors bringing their own televisions can pick up timing information in garages by plugging in an external antenna. TV's should be manually tuned to UHF **channel 69** for the Race Display screen.

Internet based timing

Computime will also be able to bring you live timing on the internet. Follow the links from **www.computime.com.au**.

Services not available

This venue does not have intermediate timing loops installed. Full completed lap timing only.

Computime's local wireless network enabling live timing to be accessed from devices WITHOUT internet connections, WILL NOT be set-up this weekend. If you have a device with internet connectivity, refer "LIVE Internet based timing" above.

A handwritten signature in black ink, appearing to read 'Scott Laing'.
