AUSSIE FLAT TRACK NATIONALS 2026

TIMING BULLETIN

Timing transponder collection and deposits

Transponders will be available for collection from the race secretary's office from Saturday morning from 7:15am. No security deposit will be required. However, should you not return the transponder by the conclusion of racing, you will be charged administration and recovery costs of up to $650 per transponder.

Timing transponder mounting and second bikes

It is the competitor's responsibility to ensure that timing transponders are properly mounted for all sessions (including practices and warm-ups). Competitors found not to have transponders properly mounted, may be black-flagged from the session or have times excluded after the end of the session. Computime's back-up procedures ensure that accurate times are recorded if any competitor is found to have a faulty timing transponder.

Transponder mounting brackets

Mounting brackets will NOT be provided for use with transponders. Some competitors have already purchased them as part of the entry and they will be provided for you to keep when the transponder is collected. If you require to purchase a bracket at the end, they are for sale for **$15** (GST incl).

Internet based timing

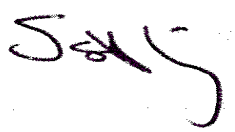

You can use your internet enabled laptop, tablet, or smartphone to view live timing and results. Follow the links from **www.computime.com.au**.

Services unavailable

This venue does not have a hard wired or TV transmitter distribution system. Live timing information available from Computime's website only.

NO intermediate sector timing will be available this weekend. Full lap timing only.

Computime's local wireless network enabling live timing to be accessed from laptop computers WITHOUT internet connections, WILL NOT be set-up this weekend. If you have an internet connection, refer "LIVE Internet based timing" above.
