2026 HMRAV SHANNONS 43rd SOUTHERN CLASSIC

STATE MOTORCYCLING COMPLEX – BROADFORD

TIMING BULLETIN

Timing transponder collection and deposits

Transponders should be available for collection from the SCRUTINEERING BAY, on **Friday afternoon from 4:00pm** and on **Saturday morning from 7:15am**. **Security deposits are not required, however competitors must return the transponder by the end of the event or they will become liable for additional rental or replacement costs of up to $700 per transponder.**

Timing transponder mounting

It is the competitor's responsibility to ensure that timing transponders are properly mounted for all sessions (including practices and warm-ups). Competitors found not to have transponders properly mounted, may be black-flagged from the session or have times excluded after the end of the session. Computime's back-up procedures ensure that accurate times are recorded if any competitor is found to have a faulty timing transponder.

Competitors with two machines in different classes have been allocated an additional timing transponder.

Transponder mounting brackets

Mounting brackets WILL NOT be provided for rental with transponders. They are available for sale for **$15 each** (GST incl) – **EFTPOS ONLY**. Competitors can then retain the bracket on their bike for future events.

Internet based timing

Computime will be able to bring you live timing and results on the internet for you to access at the circuit, and for your family and friends not able to be with you at the circuit. Follow the links from **www.computime.com.au**.

Other services not available this weekend

The intermediate timing points will NOT be in use this weekend. Full lap timing only.

This venue does not have an in-house hard wired or TV transmission system. Live timing will only be available via laptop computers, tablets, and smartphones with internet access.
